Covid-19 vaccine gap between countries persists as pandemic enters 3rd year

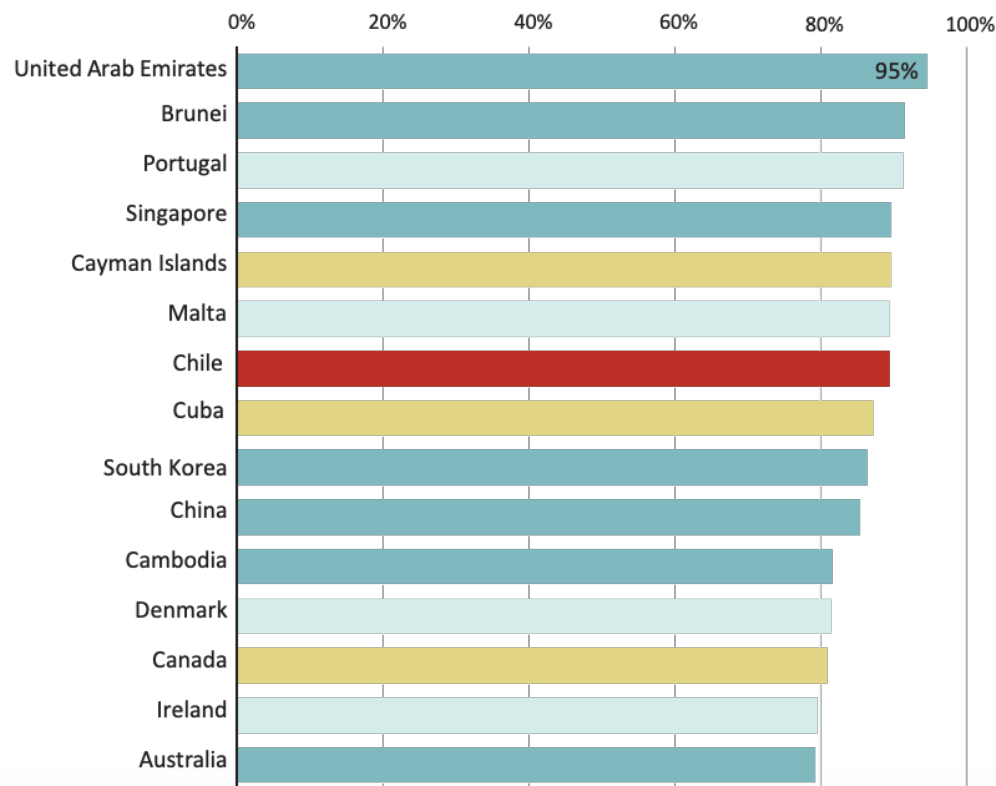

As the global pandemic enters its third year, data has shown a stark difference in Covid-19 vaccination rates around the world. Countries like the United Arab Emirates have fully vaccinated over 90% of their populations, while other countries, including Haiti and Mali, have vaccinated less than 1% of their populations.

Africa remains the most under-vaccinated region of the world

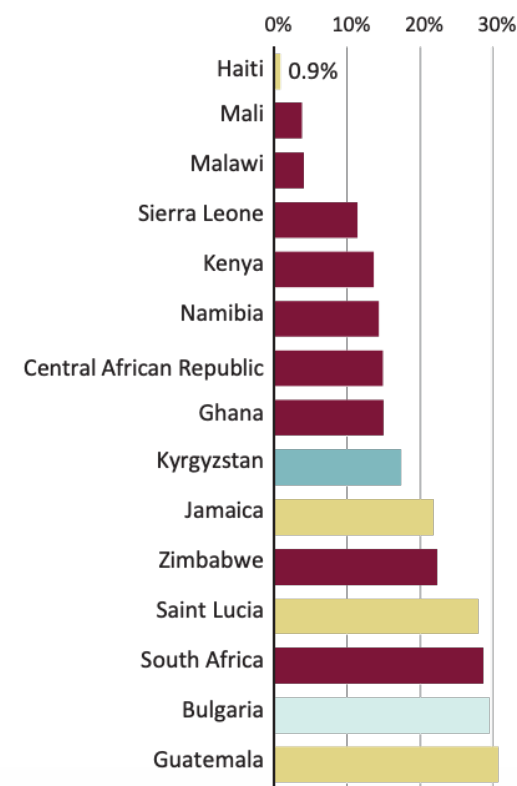

SHARE OF PEOPLE FULLY VACCINATED AGAINST COVID-19, AS OF FEB. 25

● Africa ● Asia-Pacific ● Europe ● North America ● South America

15 countries with the highest vaccination rates

15 countries with the lowest vaccination rates
