Warmest Wishes this Holiday Season!

Donald Trump's November victory was a barrier blasting event. Republicans now control the White House and both houses of Congress, and it's absolutely clear that Washington, D.C. will see a significant, if not unprecedented, transformation in both policy and regulation in a whole host of areas.

We created *Arizona Eyes on DC* in June of 2015 because we knew that Arizona business, agriculture, and community leaders and government officials need timely and accurate information on news and trends in Washington, D.C. to help them make important decisions. We've been delighted with the response, so we're going to ramp up *Arizona Eyes* next year to meet the waves of change that are surely coming.

- We'll produce *Arizona Eyes* more often in 2017.
- We'll produce even more articles, more interviews - but as always written by men and women who have both expertise and experience - on subjects of importance to Arizona.

Continue to let us know about subjects you would like us to cover. We always welcome your thoughts, feedback, and suggestions for future editions. We strive to be your Eyes on DC.

Merry Christmas. Happy Holidays. Best wishes for a healthy, happy, and successful New Year.
