

# House lawmakers' infrastructure earmark requests hit \$14.9B

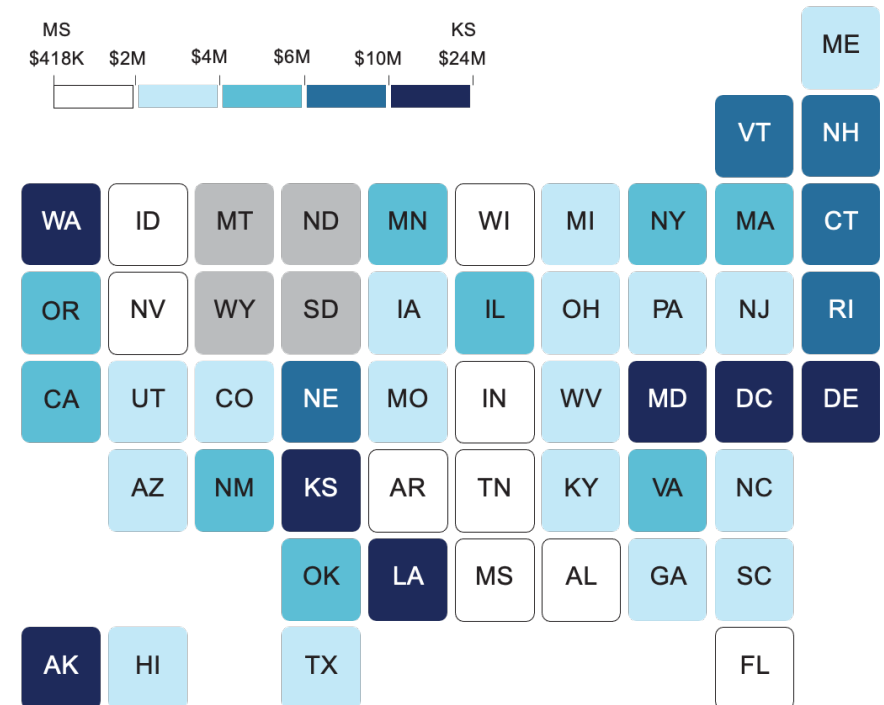

May 13, 2021

The House Transportation and Infrastructure Committee has published data on members' funding requests for infrastructure development. Lawmakers have requested earmarks, known formally as Member Designated Projects, to be included in the committee's surface transportation legislation. The list of requests totals almost \$14.9 billion, in excess of the funding that will ultimately be available.

California, Washington and New York lead by total requests  
TOTAL VALUE OF EARMARKS REQUESTED FOR EACH STATE

Kansas, Washington lead in dollars per capita  
EARMARKS REQUESTED PER 100,000 IN STATE POPULATION

Note: State populations used to calculate per capita rates come from the Census Bureau's state total populations in 2020 used for apportionment, with the exception of Washington, D.C., which comes from the Census Bureau's resident population total.
